

## Mask Mandate Exceptions

With updated guidance from the Centers for Disease Control (CDC), the City of Tempe issued a mask mandate that requires all city employees and visitors to wear masks inside City buildings. This applies to vaccinated and unvaccinated individuals. Patrons at any of the City's multigeneration or recreation centers must wear a mask while in the facility, but may remain unmasked while participating in physical activity, or when actively eating or drinking. When and where feasible, all activities in City multigeneration and recreation centers will continue to implement additional mitigation measures such as handwashing, cleaning, disinfection, and physical distancing. As a reminder, please stay home if you have any COVID-19 like symptoms including but not limited to: fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and diarrhea.

Tempe will continue to examine local data, re-evaluate local conditions, and note evolving CDC guidance in the coming weeks to determine future courses of action. For more information on indicators of change in COVID-19 trends, visit [tempe.gov/indicators](https://tempe.gov/indicators). This site contains a combination of Tempe-focused indicators (metrics) related to community health and COVID-19, providing access to the most current, Tempe-relevant data in a way that makes it easier to understand.
